Terese Soto – Director

July 26, 2006

To Whom It May Concern:

Mike Andreas has been our network administrator for three years. He has been an excellent resource for our school. Whenever there was an issue with our computers, Mr. Andreas helped us troubleshoot the problem or came in to assist us in an expeditious manner. He was supportive and available.

Our network consisted of eight teacher/staff computers and 27 student laptops running Microsoft XP operating systems. We also had 14 Linux boxes. Mr. Andreas held security in the forefront of his plan when he designed our computer program. He kept the teacher and student networks separate to ensure the safety of our school's bookkeeping and confidential records. We were very pleased with his work.

Mr. Andreas not only gave in-services for our teachers, but also became our Computer Science teacher for grades 3 thru 8. He was creative and patient with our students. He showed that he could assist teachers and students with obtaining relevant learning goals.

I would recommend Mr. Andreas for any position working with students and teachers. I would also recommend Mr. Andreas for any technical position working with computers. We were extremely satisfied with his efforts. If you have any further questions, please feel free to call (928) 776-1212.

Sincerely,

Terese Soto
Director
